******180 TOTAL UNITS and 64 UPPER DIVISION UNITS REQUIRED TO GRADUATE******

ALL MAJOR COURSES MUST BE TAKEN FOR A LETTER GRADE

¹Students with a good high school chemistry and physics background, good math skills and who score satisfactorily on diagnostic examinations may choose to take the Chem 2AH (honors) series. If they do not do well, they should continue on with Chem 2B and 2C.

²Math 21A requires a knowledge of analytic geometry and a facility for math. Students who do poorly in Math 21A should continue on with the Math 17 series.

³Biochemistry majors are encouraged to start Bio Sci 101 in the Spring Quarter and 102 in the Fall. Transfer students lacking organic chemistry may have to postpone 101 and 102 until the Spring Quarter. (Bio Sci 101, 102, 103 and 104 are taught all three quarters.)

⁴MCB 120L can be taken in the Winter Quarter or the Spring Quarter of the third year.

⁵Underlined courses are taught only during the quarter indicated. Chem 107A and B can be taken in the third year and other courses adjusted accordingly. Beginning Fall 2014 CHE 107A (I, II); 107B (II, III).
